BOYNTON BEACH MOBILITY FEE SCHEDULE FOOTNOTES				
¹ Single-Family Residential Square Feet is the sum of the area (in square feet) of each dwelling unit measured from the exterior surface of the exterior walls.				
² Multi-Family Residential Square Feet is the sum of the area (in square feet) of each building measured from the exterior surface of the exterior walls. This includes common areas, lobbies, leasing offices, and residential amenities not accessible to the public. Retail or office square footage leased to a third-party would pay the applicable mobility fee rate. Square footage does not include parking garages or structures.				
³ Any retail, office, or non-residential square footage that is leased to a third-party use to provides drinks, food, goods, or services to the public shall be required to pay the applicable mobility fee per the individual uses identified in the mobility fee schedule.				
⁴ For Commercial Recreational Uses that feature both indoor facilities and outdoor recreation, the indoor shall be based on the indoor mobility fee rate, the outdoor shall be made on the outdoor rate, any other uses shall pay the applicable mobility fee for the land use.				
⁵ Acreage for any unenclosed material and vehicle storage, including but not limited to boats, commercial vehicles, recreational vehicles (RV), and trailers, sales and display shall be converted to square footage. See Commercial Storage definition for further detail.				
⁶ Retail includes all uses that do not fall under High Impact or Convenience Retail and generate less than 75 daily trips per 1,000 sq. ft. per the latest ITE Generation Manual or alternative study.				
⁷ High Impact Retail includes banks, pharmacies, sit down restaurants (non fast food), grocery stores, supermarkets, beer, liquor, package, wine and spirits stores, bars, nightclubs, lounges. These uses generate between 75 and 250 daily trips per 1,000 sq. ft. per the latest ITE Generation Manual or alternative study. Convenience Retail includes convenience stores, gas stations, service stations, coffee, donut, sandwich, food and beverage that would be considered fast food or quick service restaurants. These uses generate between more than 250 daily trips per 1,000 sq. ft. per the latest ITE Generation Manual or alternative study.				
⁸ Non-residential uses are assessed applicable mobility fees per unit of measure in addition to the mobility fee assessed with the square footage of the building.				
⁹ Auto / Boat / Car Wash shall mean any car wash, wax, or detail where a third party or automatic system performs the cleaning service. Mobility Fee are assessed per bay or stall, plus per five (5) finishing stations. See definition for further detail. The applicable mobility fee rate would also be assessed for any additional building square footage under retail uses.				
¹⁰ Auto Charging or Fueling per position apply to a convenience store, gas station, general store, grocery store, supermarket, superstore, variety store, wholesale club or service stations with charging stations or fuel pumps. In addition, there shall be a separate mobility fee for the square footage of any retail building per the applicable mobility fee rate under retail uses. The number of charging or fueling positions is based on the maximum number of vehicles that could be charged or fueled at one time. Non-commercial vehicle charging stations associated with residential or non-residential uses that are required by the City or are provided by the owner as an amenity and not a commercial purpose shall not be assessed a mobility fee.				
¹¹ Auto or Boat Repair / Service includes maintenance, repair, and servicing of motor vehicles. Mobility Fee are assessed per bay or stall, plus a retail rate associated with any additional building sq. ft. under retail uses for waiting areas, parts, and sales.				
¹² Banks shall pay the High Impact Retail rate for the square footage of the building under the retail use category. Drive-thru lanes, Free Standing ATM's and Drive-thru lanes with ATM's are assessed a separate fee per lane or per ATM and are added to any mobility fee associated with a bank building. The free-standing ATM is for an ATM only and not an ATM within or part of another non-financial building, such as an ATM within a grocery store.				
¹³ Any drive-thru associated with a fast food restaurant will be an additive fee in addition to the applicable Convenience Retail mobility fee per square foot of the building. The number of drive-thru lanes will be based on the number of lanes present when an individual places an order or picks up an order, whichever is greater.				
¹⁴ Any drive-thru associated with a Retail or High Impact retail use will be assessed an additive mobility fee in addition to the applicable retail use mobility fee rate per square foot of the building. The number of drive-thru lanes shall be based on the total number of lanes available for either pick-up, drop-off, or placement of an order for goods or services.
