

2040 MOBILITY FEE: RESIDENTIAL TO RECREATION LAND USE

The Mobility Plan and Mobility Fee Technical Report detail the methodology, data, and sources for calculating the recommended Mobility Fee. The Mobility Fee for each land use and each assessment area for Residential, Institutional, Industrial, and Recreation Uses is shown below. The Mobility Fee is transitioning several land uses and how fees are calculated versus the current roads impact fee. Current residential roads impact fees vary based on the number of bedrooms and the type of residential unit. The Mobility Fee is a flat rate per square foot, regardless of the type of residential use. This is consistent with how the City currently charges for park, fire, and law enforcement impact fees. While hotels, RVs, and marinas are currently included in one roads impact fee category, the Mobility Fee provides separate land uses for each. Industrial and community uses have been consolidated and two new recreational land uses have been added. The Technical Report provides a comparison to the existing roads impact fee with the Mobility Fee.

Draft City of Bradenton Mobility Fee Schedule (2020DEC30)

Land Use	Unit of Measure	FBC = Form Based Code Area		
		Within FBC	Outside FBC	Annexed Areas Outside FBC
Residential / Lodging Uses				
Residential	per sq. ft.	\$0.72	\$0.96	\$1.18
Overnight Lodging (Bed & Breakfast versus / Motel / Hotel / Resort)	per room	\$967	\$1,276	\$1,571
Recreational Vehicle Park (RVs / Tiny Homes on Wheels / Travel Trailers)	per space / lot	\$545	\$720	\$886
Institutional Uses				
Community-Serving (Day Care / Place of Assembly or Worship / Private School)	per sq. ft.	\$0.61	\$0.82	\$0.98
Long Term Care (Assisted Living / Congregate Care / Nursing Homes)	per sq. ft.	\$0.72	\$0.95	\$1.16
Industrial Uses				
Industrial (Brewing / Distribution / Manufacturing / Utility / Warehousing)	per sq. ft.	\$0.41	\$0.59	\$0.71
Mini Warehouse (plus Boat / Car / RV Storage & Other Outdoor Storage) ¹	per sq. ft.	\$0.18	\$0.22	\$0.24
Recreation Uses				
Marina	per berth	\$170	\$227	\$284
Outdoor Commercial Recreation (Golf / Multipurpose Recreation / Sports)	per acre	\$1,012	\$1,347	\$1,690
Indoor Commercial Recreation (Fitness / Gym / Health / Sports)	per sq. ft.	\$1.45	\$1.93	\$2.42

2040 MOBILITY FEE: OFFICE TO RETAIL LAND USE

The calculated Mobility Fee for each land use and each assessment area for Office and Retail Uses is shown below. The current roads impact fee schedule has four separate office and three separate retail uses and charges the highest rate for the smallest offices and retail uses, which are often small local businesses and “mom-and-pop” retail uses. The proposed Mobility Fee consolidates the number of office land uses from four to one and retail uses from three to one. All office pays the same rate per square foot and all retail pays the same rate per square foot. Medical and hospital land uses are also proposed to be combined, as the distinction between the two is becoming less. New categories for high traffic-generating impact uses, such as quick service restaurant (aka fast food) drive-through lanes, fueling (gas) pumps for cars, and drive-through ATMs have been added and are in addition to the fees for the actual square footage of buildings (banks fall under office and all others fall under retail).

Office Uses				
Office (<i>Bank / General / Higher Education / Professional</i>)	per sq. ft.	\$1.12	\$1.62	\$1.95
Medical Office (<i>Clinic / Doctor / Dentist / Emergency / Hospital / Veterinary</i>)	per sq. ft.	\$1.89	\$2.98	\$3.33
Commercial & Retail Uses				
Retail (<i>Entertainment / Restaurant / Sales / Services / Vehicles</i>) ²	per sq. ft.	\$2.61	\$3.49	\$4.08
Motor Vehicle & Boat Cleaning (<i>Detailing / Wash / Wax</i>)	per stall	\$4,670	\$5,813	\$6,225
Bank Drive-Thru Lane or Free-Standing ATM ³	per lane / ATM	\$6,777	\$8,436	\$9,034
Quick Service Restaurant Drive Thru ⁴	per drive-thru lane	\$15,866	\$21,497	\$25,717
Motor Vehicle Fueling Position ⁵	per fueling position	\$7,830	\$9,747	\$10,438

¹ Acreage for any unenclosed material and vehicle storage, sales and display shall be converted to square footage.

² Square footage shall be based on gross sq. ft. under roof or canopy and all areas used for outdoor display, sales, seating, and storage not under roof or canopy.

³ Each bank building shall pay the office rate for the square footage of the building. Drive-thru lanes, free-standing ATM's and drive-thru lanes with ATM's are assessed a separate fee per lane or per ATM and are added to any fee associated with a bank building. The free-standing ATM is for an ATM only and not an ATM within or part of another non-financial building, such as an ATM within a grocery store.

⁴ Any drive-thru associated with a quick service restaurant will be an additive fee in addition to the retail fee per square foot. The number of drive-thru lanes will be based on the number of lanes present when an individual places and / or picks-up an order. The restaurant drive-thru rate applies for any type of retail building, whether a multi-tenant or free-standing building.

⁵ Rates per vehicle fueling position apply to any retail uses with vehicle fueling, whether a convenience store, gas station, general store, grocery store, supermarket, superstore, variety store, wholesale club or service stations with fuel pumps. In addition, there shall be a separate retail fee per square foot for any building. The number of fueling positions is based on the maximum number of vehicles that could be fueled at one time.
