

MOBILITY FEE SCHEDULE

The 2045 Mobility Action Plan & Mobility Fee Technical Report details the methodology, data, and sources for determining the Mobility Fee. The calculated Mobility Fee for each land use is further defined in the Technical Report. The majority of Mobility Fees are calculated on a square feet basis, except where the unit of measure indicates otherwise. The Technical Report provides a comparison of the calculated Mobility Fee against the Transportation Impact Fee (aka Non-Plan Based Alternative Fee).
